

AZ blue drops

A RECOVERY CONCENTRATE

THE CONCEPT

AZ blue drops are formulated for use in post-treatment recovery protocols. The formula supports the skin's natural response to controlled inflammation, helping to restore balance, reduce sensitivity, and reinforce barrier function.

THE FUNCTION

- Calms visible inflammation and redness
- Supports barrier repair and resilience

THE COMPOSITION

A synergistic combination of Azulene, Ectoin and Schizophyllan each selected for its targeted biological function

- Azulene supports anti-inflammatory activity and reduces skin reactivity
- Ectoin provides osmoprotection, reducing transepidermal water loss (TEWL)
- Schizophyllan forms a bio-active microfilm to support hydration and repair

THE MECHANISM

The formula creates a lightweight protective film, acting as a functional "second skin" to reduce moisture loss and protect the skin. It supports osmoprotective and anti-inflammatory pathways within, enabling a more efficient and controlled recovery response.

THE OUTCOME

Skin appears calmer, more resilient, and visibly restored, with reduced redness and improved overall skin comfort.

THE POSITIONING

A professional recovery concentrate, formulated to complement advanced resurfacing protocols and optimise post-treatment outcomes.

APPLICATION

AZ blue drops are formulated for flexible integration:
Apply directly to skin or combine with P.O.S.T. recovery gel to enhance recovery performance. This adaptability allows for customised treatment approaches, aligned with individual skin needs.

PHILOSOPHY

Healthy skin is the result of optimal cellular communication. This technology supports the signals that guide renewal, repair, and skin health restoration.

PRODUCT SIZE
4 x 4 ml ampoules

INGREDIENTS (INCI)

Aqua (Water), Butylene Glycol, Ectoin, Isosorbide, Caprylic Capric Triglycerides, PPG-13-Decyl Tetradeceth-24, Propanediol, 1,2-Hexanediol, Guaiazulene, Schizophyllan, 1,2-Hexanediol, Ethylhexylglycerin, Pentaerythrityl Tetra-Di-T-Butyl Hydroxyhydrocinnamate, Benzotriazolylidodecyl p-Cresol, Xanthan Gum, Sodium Phytate, Sodium Levulinate, Potassium Sorbate.

PRODUCT DESCRIPTION

AZ blue drops is a recovery concentrate formulated with Azulene and Ectoin. It supports the natural repair processes following controlled stimulation, helping to calm visible redness, restore hydration balance, and support barrier integrity. Through a synergistic combination of specific ingredients working at both surface and cellular level, AZ blue drops help optimise the recovery process, leaving the skin visibly soothed, strengthened, and rebalanced.

THE FORMULATION

KEY ACTIVE INGREDIENTS AND PROPERTIES	
Azulene (Guaiazulene)	Visibly calms irritation, reducing redness and inflammation for immediate comfort.
Ectoin	Forms a protective hydration shell that deeply moisturises, strengthens the skin barrier.
Schizophyllan	Creates a lightweight moisture-locking film that hydrates and supports skin healing.
Isosorbide	Enhances the delivery of these ingredients for maximum efficacy.

INDICATIONS	
TYPICAL PATIENT	
Post-treatment skin Sensitive or stressed skin Dehydrated skin	C.R. A.C. M.E.L.A. A.G.E.
Fitzpatrick I - VI	

pH TIPS	
Apply a pure, concentrated drop to each area as needed, or mix 1-2 drops with P.O.S.T. recovery gel to enhance hydration and support treatment recovery.	
LEAVE ON. DO NOT REMOVE FROM SKIN.	

AZ BLUE DROPS POST-TREATMENT SKIN RECOVERY

AZ blue drops support the recovery phase following skin resurfacing treatments.

It assists in:

- Reducing visible skin redness
- Supporting barrier resilience
- Enhancing skin hydration
- Improving overall skin comfort

TIME DURATION: 30 min

1. CLEANSE
E.X.F.O. cleanse - Cleanse the treatment area thoroughly and remove with dampened gauze or cotton pads. Pat dry.

2. DEGREASE
S.K.I.N. primer - Spray S.K.I.N. primer on gauze or cotton pads and wipe over the entire treatment area. Repeat in areas with excess sebum.

3. SKIN PERMEABILITY & SENSITIVITY
S.P. complex - Decant 1 pipette in a small glass bowl. Apply a thin layer with a fan brush. Leave for 2 minutes and remove with dampened cotton pads. Assess skin tolerance: redness and sensitivity (0-10).

4. MESORESURFACING™ (OPTIONAL)
MESORESURFACING™ concentrate level 1 or 2 - Shake vial. Use provided pHformula applicator to apply 1 drop per zone. Follow treatment diagram. Gloves mandatory.

5. RESURFACE
C.R. 1 or 2 complex (skip S.P. complex)
A.C. 1 or 2 mild solutions / A.C. 1+2 solution / A.C. 1 or 2 solutions
M.E.L.A. 1 or 2 powerclay™
A.G.E. 1 or 2 mild solutions / A.G.E. 1+2 solution / A.G.E. 1 or 2 solutions

6. MASK (OPTIONAL)
Apply mask of choice.

7. CALM & HYDRATE
OPTION A:
AZ blue drops - Apply a pure, concentrated drop to each area as needed and follow with P.O.S.T. recovery cream or SOS repair cream.
OPTION B:
AZ blue drops + P.O.S.T. recovery gel - Mix 1-2 AZ blue drops with P.O.S.T. recovery gel to enhance hydration and support post-treatment recovery.

8. PROTECT
U.V. protect SPF 30 - Complete the treatment by applying the broad-spectrum sun protection factor.
