

PDRN active cubes

A FREEZE-DRIED ACTIVE COMPLEX

THE CONCEPT

PDRN derived from *Centella Asiatica*, also known as Cica, is a plant-based alternative to traditional salmon-derived PDRN. Centella-derived PDRN supports the skin's ability to repair and restore itself during multidimensional signalling.

THE FUNCTION

This high-purity bio-active complex acts as a botanical growth factor stimulant, helping to

- Support cellular renewal
- Enhance collagen synthesis
- Reinforce barrier integrity

The result is skin that appears more hydrated and visibly restored.

THE MECHANISM

Centella-derived PDRN works by interacting with cellular signaling pathways, supporting DNA synthesis and accelerating cell turnover. This enables a more efficient regenerative response which guides the skin toward functional repair rather than superficial correction.

THE OUTCOME

Skin appears firmer and with enhanced luminosity.

THE POSITIONING

A plant-based alternative to conventional PDRN aligned with modern skin science.

APPLICATION

Developed to complement multidimensional signal focussed resurfacing protocols, enhancing recovery and supporting optimal skin health restoration.

PHILOSOPHY

Healthy skin is the result of optimal cellular communication. This technology supports the signals that guide renewal, repair, and skin health restoration.

PRODUCT SIZE

4 x vials with 3 cubes each

INGREDIENTS (INCI)

Mannitol, Pullulan, Sodium Hyaluronate, Hydroxypropyl Cyclodextrin, Sodium DNA, Cyanocobalamin.

PRODUCT DESCRIPTION

PDRN active cubes are a freeze-dried, high-purity recovery complex powered by *Centella asiatica*-derived PDRN, a plant-based innovation aligned with advanced skin science. Formulated to support multidimensional cellular signalling, this bio-active system enhances functional repair by stimulating renewal pathways, enhancing collagen synthesis, and reinforcing barrier integrity. By working in synergy with the skin's intrinsic communication networks, PDRN active cubes help reinforce skin structure and support regenerative repair processes, resulting in skin that appears firmer, more radiant, and revitalised.

THE FORMULATION

KEY ACTIVE INGREDIENTS AND PROPERTIES

PDRN (Sodium DNA)	Contributes to skin repair and collagen synthesis, helping to improve skin elasticity.
Sodium Hyaluronate	Enhances skin hydration, improving elasticity and suppleness.
Pullulan	Provides an immediate tightening and smoothing effect on the skin surface.
Vitamin B¹² (Cyanocobalamin)	A bioactive antioxidant that supports skin recovery.

INDICATIONS

TYPICAL PATIENT	
All skin types Early to moderate loss of elasticity Environmentally stressed skin Dull, fatigued skin Sensitised skin	ALL SKIN TYPES
Fitzpatrick I - VI	

pH TIPS

Use as part of the repair phase following resurfacing or corrective treatments.

MIX IMMEDIATELY PRIOR TO USE

LEAVE ON. DO NOT REMOVE FROM SKIN.

PDRN REPAIR PHASE

PDRN active cubes is formulated as a key step within the repair phase to:

- Improve skin quality and vitality
- Support the appearance of elasticity and skin density

TIME DURATION: 30 min

1. CLEANSE

E.X.F.O. cleanse - Cleanse the treatment area thoroughly and remove with dampened gauze or cotton pads. Pat dry.

2. DEGREASE

S.K.I.N. primer - Spray S.K.I.N. primer on gauze or cotton pads and wipe over the entire treatment area. Repeat in areas with excess sebum.

3. SKIN PERMEABILITY & SENSITIVITY

S.P. complex - Decant 1 pipette in a small glass bowl. Apply a thin layer with a fan brush. Leave for 2 minutes and remove with dampened cotton pads. Assess skin tolerance: redness and sensitivity (0-10).

4. MESORESURFACING™ (OPTIONAL)

MESORESURFACING™ concentrate level 1 or 2 - Shake vial. Use provided pHformula applicator to apply 1 drop per zone. Follow treatment diagram. Gloves mandatory.

5. RESURFACE

C.R. 1 or 2 complex (skip S.P. complex)

A.C. 1 or 2 mild solutions / A.C. 1+2 solution /

A.C. 1 or 2 solutions

M.E.L.A. 1 or 2 powerclay™

A.G.E. 1 or 2 mild solutions / A.G.E. 1+2 solution /

A.G.E. 1 or 2 solutions

6. MASK (OPTIONAL)

Apply mask of choice.

7. REPAIR

PDRN active cubes - Open the glass vial carefully and remove 1 PDRN active cube, using a clean tool or dry hands and place it in a glass bowl. Add 1.5ml water and mix gently until the cube is fully dissolved into a smooth serum-like solution. Apply with a fan brush starting with the forehead, moving to cheeks and nose and finally the chin.

8. CALM & HYDRATE

OPTION A:

AZ blue drops - Apply a pure, concentrated drop to each area as needed and follow with P.O.S.T. recovery cream or SOS repair cream.

OPTION B:

AZ blue drops + P.O.S.T. recovery gel - Mix 1-2 AZ blue drops with P.O.S.T. recovery gel to enhance hydration and support post-treatment recovery.

9. PROTECT

U.V. protect SPF 30 - Complete the treatment by applying the broad-spectrum sun protection factor.
