

VITA C + FERULIC ACID POWDER

AN ANTIOXIDANT DEFENCE TREATMENT

VITA C + FERULIC ACID POWDER

AN ANTIOXIDANT DEFENCE TREATMENT

THE CONCEPT

VITA C + ferulic acid powder is formulated to provide concentrated antioxidant defence, helping protect the skin against oxidative stress while supporting luminosity, even skin tone and overall skin quality.

THE FUNCTION

This high-strength antioxidant treatment helps to:

- Provide powerful antioxidant protection.
- Protect against UV-induced oxidative stress.
- Brighten dull and uneven-looking skin.
- Improve the appearance of visible hyperpigmentation.
- Support collagen synthesis and skin quality.
- Support skin vitality, radiance, and resilience.

The result is visibly brighter, more even and radiant-looking skin.

THE COMPOSITION

A synergistic combination of pure L-Ascorbic acid and Ferulic acid, selected for their complementary antioxidant activity. L-Ascorbic acid provides powerful antioxidant activity while supporting collagen synthesis and a more even-looking complexion. Ferulic acid provides complementary antioxidant protection and helps enhance the antioxidant performance of L-Ascorbic acid.

THE MECHANISM

VITA C + ferulic acid powder provides concentrated antioxidant activity to help neutralise oxidative stress and support the skin's natural defence systems. The freshly activated format allows the skin specialist to prepare the treatment immediately before application, helping preserve the integrity and potency of the powder until use.

THE OUTCOME

Skin appears brighter, more luminous and even, with improved radiance and overall skin quality.

THE POSITIONING

A professional antioxidant defence treatment formulated to complement advanced dermatological skin resurfacing protocols. Particularly suited to skin showing signs of photo-ageing, dullness, uneven skin tone, superficial hyperpigmentation, and oxidative stress. It is the ideal summer skin resurfacing treatment.

APPLICATION

VITA C + ferulic acid powder may be used:

- As a targeted antioxidant defence treatment.
- As part of advanced dermatological skin resurfacing treatments.
- As a summer skin resurfacing treatment.

PHILOSOPHY

Healthy skin needs effective antioxidant defence to help manage the effects of oxidative stress. VITA C + ferulic acid powder combines two complementary antioxidants in a freshly activated professional treatment to support skin vitality, luminosity, and resilience while helping maintain healthier-looking skin.

VITA C + ferulic acid powder

PRODUCT SIZE
2 x 4gr vials

INGREDIENTS (INCI)
Ascorbic Acid, Ferulic Acid

PRODUCT DESCRIPTION
VITA C + ferulic acid powder is an advanced professional antioxidant treatment combining pure L-Ascorbic acid with Ferulic acid in a concentrated dry-powder system, freshly activated immediately before professional application.

Packaged in a glass vial, the powder format helps preserve the integrity and potency of the active ingredients until the moment of use. When combined with the activator, it creates a freshly prepared, high-strength antioxidant treatment designed to support the skin's defence against oxidative stress.

It can be incorporated into professional treatments as a targeted antioxidant step, used before periods of increased seasonal UV exposure or as part of a post-summer recovery programme to help restore radiance and address the visible effects of oxidative stress.

THE FORMULATION

KEY ACTIVE INGREDIENTS AND PROPERTIES	
L-Ascorbic acid	Biologically active form of vitamin C. Provides powerful antioxidant activity while helping brighten visible pigmentation, improve uneven skin tone, and support collagen synthesis
Ferulic acid	Provides complementary antioxidant activity working in synergy with L-Ascorbic acid to strengthen the formula's defence against UV-induced oxidative stress

INDICATIONS	
TYPICAL PATIENT	
Photo-ageing Fine lines and wrinkles Dull, uneven-looking skin tone Superficial hyperpigmentation Skin exposed to increased oxidative and environmental stress Loss of radiance and overall skin vitality	A.G.E. M.E.L.A.
Fitzpatrick I - VI	

pH TIPS
Mix the VITA C + ferulic acid powder with the VITA C activator just before use as a targeted treatment or to customise an advanced dermatological skin resurfacing treatment.
This is an ideal summer resurfacing treatment.
LEAVE ON. DO NOT REMOVE FROM SKIN.

VITA C + ferulic acid powder:

Is formulated to:

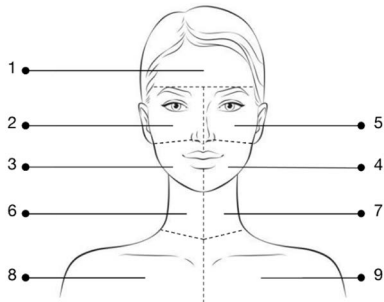

- Provide powerful antioxidant protection.
- Help protect against UV-induced oxidative stress.
- Help brighten dull and uneven-looking skin.

SMALLER TREATMENT AREA

- | | |
|----------------|-----------------------|
| 1. Forehead | 5. Left-side of neck |
| 2. Left cheek | 6. Right-side of neck |
| 3. Jawline | 7. Left décolleté |
| 4. Right cheek | 8. Right décolleté |

LARGER TREATMENT AREA

- | | |
|------------------------------|-----------------------|
| 1. Forehead | 6. Left-side of neck |
| 2. Left cheek | 7. Right-side of neck |
| 3. Left jawline & upper lip | 8. Left décolleté |
| 4. Right jawline & upper lip | 9. Right décolleté |
| 5. Right cheek | |

TIME DURATION: 30 min

1. CLEANSE

E.X.F.O. cleanse - Cleanse the treatment area thoroughly and remove with dampened gauze or cotton pads. Pat dry.

2. DEGREASE

S.K.I.N. primer - Spray S.K.I.N. primer on gauze or cotton pads and wipe over the entire treatment area. Repeat in areas with excess sebum.

3. SKIN PERMEABILITY & SENSITIVITY

S.P. complex - Decant 1 pipette in a small glass bowl. Apply a thin layer with a fan brush. Leave for 2 minutes and remove with dampened cotton pads. Assess skin tolerance: redness and sensitivity (0-10).

4. RESURFACE

VITA C + ferulic acid powder and V.I.T.A. C activator - Using the provided applicator cap, measure one dose of VITA C + ferulic acid powder into a small glass bowl. Add one full pipette of V.I.T.A. C activator and mix until fully dissolved. Apply with a fan brush and massage gently into the skin. Re-apply to problem areas. Leave to absorb.

5. ENERGISE (optional)

NAD⁺ concentrate - Shake the vial before opening. Use pHformula sterile applicator to apply 1 drop per zone and massage into the skin. Follow the treatment diagram. 3 Layers. Gloves mandatory.

6. CALM & HYDRATE

OPTION A:

BLUE drops - Apply a pure, concentrated drop to each area as needed and follow with P.O.S.T. recovery cream or SOS repair cream.

OPTION B:

BLUE drops + P.O.S.T. recovery gel - Mix 1-2 BLUE drops with P.O.S.T. recovery gel to enhance hydration and support post-treatment recovery.

7. PROTECT

U.V. protect SPF 30 - Complete the treatment by applying the broad-spectrum sun protection factor.
